SITUATION: Commandation

TO: All Officers and Enlisted Men

I desire to express to each member of this command my sincere appreciation for the aggressive and courageous action which merited the enclosed commendation from our Army and Corps Commanders.

When you initially attacked for seven days and nights without halting for rest, you met and defeated more than twice your own number. Your advance required the enemy to turn fresh divisions against you, and you in turn hacked them to pieces as you ruthlessly cut your way deep into the flank of the "Bulge". Your feats of daring and endurance in the sub-freezing weather and snow-clad mountains and gorges of Luxembourg are legion; your contribution to the relief of Bastogne was immeasurable. It was particularly fitting that the elimination of the "Bulge" should find the Yankee Division seizing and holding firmly on the same line held by our own forces prior to the breakthrough.

I am proud of this feat by you as well as those you performed earlier. We shall advance to Berlin together.

2. The Corps Commander is gratified to transmit the Army Commander's commendation to the units of Corps troops and divisions participating in the relief of Bastogne. The uncertainty of the enemy situation, the stubborn enemy resistance, the disregard for losses and the teamwork which all units displayed in gaining the goal of relieving Bastogne were the contributing factors that made the operations such an outstanding victory, and will be highly valued in the history of each unit.

3. The Corps Commander adds his commendation for the performance of this task well done.

4. The contents of this letter will be made known to all officers and enlisted men of your organizations at the earliest practicable time.

SUBJECT: Commendation

TO: Commanding General, 75th Infantry Division, APO 73, U.S. Army

1. On behalf of the officers and men of my Regiment, I wish to heartily commend the work done by the 157th Engineer Battalion, in their joint operation with this organization in the crossing of the Rhine on 24 March 1945.

2. Colonel Pierce, his officers, and men, worked with an untiring effort, both in the planning and practice held on the Wes River, and in the actual crossing. The fact that only one of the assault craft was lost, due to mechanical failure, is a living proof of the excellent preparations they made in aiding our successful crossing.

3. The spirit of cooperation exhibited by this Battalion was a credit to the Corps of Engineers, and should serve as an excellent example of the results which can be obtained by close cooperation between the two branches of the Service.
